

2020 Robot Track Meet Association Robot Track Meets

16TH
YEAR!

Brewer
May 2nd

Oakland
May 9th

South Portland
May 16th

11 events to challenge and excite participants

Prepare, design, and build through the spring to compete in May!

1. **Slope Climber:** Design a robot that will climb a steep slope
2. **Table Clearer:** Clear cans off a table without falling off
3. **Delivery Mission:** Quick delivery while avoiding obstacles
4. **Fastest Robot:** How fast can a Lego[®] robot go?
5. **Strongest Robot:** Build a robot that can pull up to 80 pounds
6. **Ping Pong Shot Put:** Fire ping pong balls into a goal
7. **Strongest bridge:** Build a bridge can hold as much weight as possible
8. **Robot Speed Build:** Build a simple working robot faster than anyone else
9. **Steeplechase:** Can you make it over the hill and obstacles?
10. **Walking Robot:** Get your walker to go 3 feet faster than anyone else's!
11. **Remote Control Race:** Build and program a controller to guide your robot around the course

Teams of children, who are in grades 3rd to 8th, all over the state come to compete against themselves and other teams. Teams can be from schools, after school programs, neighborhoods, wherever!
